Table of Contents

Copyright . . . 1
Author . . . 2
Prerequisite . . . 3
Why this book? . . . 4
Where to get help . . . 5
  Local communities . . . 5
  Clojure website . . . 5
  Clojure forum . . . 5
  Reddit . . . 5
Getting this book . . . 6
1. Installing Stuff . . . 7
  1.1. Clojure . . . 7
  1.2. Leiningen . . . 7
  1.3. Configuring IDE . . . 8
2. Hosted Language . . . 11
3. First Steps . . . 12
  3.1. REPL . . . 12
  3.2. Printing Things . . . 16
  3.3. Arithmetic . . . 17
  3.4. Types of Numbers . . . 22
  3.5. Strings . . . 24
  3.6. Variables . . . 26
  3.7. Clojure in file . . . 28
4. Data Structures . . . 30
  4.1. Vectors . . . 30
  4.2. Lists . . . 33
  4.3. Sets . . . 37
  4.4. Maps . . . 43
  4.5. Difference Between Vectors and Lists . . . 48
5. Reading Clojure Documentation . . . 51
  5.1. doc . . . 51
  5.2. find-doc . . . 52
  5.3. apropos . . . 53
  5.4. Clojure docs online . . . 53
6. Logic and comparison . . . 57
7. Conditions and branching . . . 62
  7.1. if . . . 62
  7.2. when . . . 65

7.3. cond . . . 67
7.4. case . . . 68
8. Loops . . . 70
8.1. for . . . 70
8.2. doseq . . . 72
8.3. loop . . . 73
9. Functions . . . 75
9.1. Saying Hello With Functions . . . 75
9.2. Passing Argument . . . 76
9.3. Finding Area Of Circle . . . 77
9.4. Refactoring . . . 77
9.5. Function with multiple arguments . . . 78
9.6. Accepting unlimited arguments . . . 80
9.7. Returning stuff . . . 82
9.8. Recursion . . . 84
9.9. Multimethods . . . 87
9.10. Pre and Post Condition Checking . . . 91
9.11. Docstring . . . 93
9.12. Anonymous Functions . . . 95
9.13. Functions returning functions . . . 96
10. Spec . . . 99
10.1. Specing collection . . . 103
10.2. Inspecting Collections . . . 105
10.3. Checking Maps . . . 107
10.4. Explaining Spec . . . 109
10.5. Conform . . . 110
10.6. Using Spec In Functions . . . 111
11. What is Clojure code . . . 113
12. Sequence . . . 115
13. Lazy Sequence . . . 120
13.1. repeat . . . 120
13.2. cycle . . . 122
13.3. iterate . . . 124
14. map, filter, reduce, apply . . . 127
14.1. map . . . 127
14.2. filter . . . 129
14.3. reduce . . . 131
14.4. apply . . . 133
15. Destructuring . . . 135
16. Threading Macros . . . 140
16.1. Thread First . . . 140

16.2. Thread Last . . . 142
16.3. Thread as . . . 142
16.4. Conditional Threading . . . 143
17. Regular Expression . . . 145
17.1. Case sensitive and insensitive matches . . . 148
17.2. Scanning for range of characters . . . 149
17.3. Using with string functions . . . 150
17.4. Things to remember . . . 151
17.5. Lot’s more left out . . . 152
18. Splitting Large Programs . . . 153
19. Records and Protocols . . . 155
19.1. Creating objects . . . 155
19.2. Using Records with functions . . . 158
19.3. Protocols . . . 160
20. namespaces . . . 166
21. Testing . . . 170
22. Macros . . . 176
23. Projects With Leiningen . . . 179
23.1. Creating a Leiningen Project . . . 179
23.2. Printing args . . . 180
23.3. Saying Hello . . . 181
23.4. Decorating Output . . . 181
23.5. Including Eternal Libraries . . . 182
23.6. Jar . . . 184
23.7. REPL . . . 185
23.8. Testing . . . 189
Bibliography . . . 193
